

Trees & Storm Damage

So how do you decide if your tree—which was damaged by a storm—can be saved? For some helpful guidelines, visit www.arboday.org. Also, per the City's Municipal Code, please give Public Works a call at (503)982-9429 before you do any tree removal and/or trimming so we may confirm that the tree(s) in question are not in the City right-of-way.
